

THE VOLUNTEER CONVERTIBILITY CALCULATOR QUESTIONNAIRE

CREATING AND SUSTAINING A STRONG FUTURE FOR VOLUNTEERING IN AUSTRALIA

The Calculator was developed based on the findings of a nationally representative survey of Australian volunteers and non-volunteers, funded by the Australian Research Council. It is intended to be used as a tool to complement the current recruitment practices of Australian volunteer-involving organisations. It calculates the propensity to volunteer (% likelihood of conversion) of people who do not currently volunteer and have not done so in the recent past.

The responses provided to this questionnaire (Section B) should be inputted into the Volunteer Convertibility Calculator to calculate the propensity to volunteer. The calculator is available at http://analytics.x10host.com/Volunteer_Calculator/calc.html

SECTION A

A1) Have you given time/volunteered in the last 12 months (giving time without pay to an organisation/association)?

☐ Yes

☐ No

A2) Have you given time/volunteered in the last 5 years (giving time without pay to an organisation/ association)?

☐ Yes

☐ No

A3) Have you given your time freely and without pay to any to these organisations within the last 5 years?

- Your kid's school or sport
- Your church
- Your work
- As part of your studies

☐ Yes

☐ No

If you answered “Yes” to any of the above questions, Section B containing the core questions of the Calculator will not apply to you as the Calculator has been designed specifically for people who do not currently volunteer and have not done so in the recent past.

If you answered “No” to **all** three questions above, please proceed to Section B.
